

CREZ Scorer's StartUp Guide v4.2

Who Should Use This Guide? Anyone who wants to *score* a live game using CREZ. Take a copy of this to the game for reference. A detailed Scorer's Guide can be found here: <http://www.crezbasketball.com/support>.

FREE CREZscorer! This software lets you score games without any cost. Download here: <http://free.crezbasketball.com/>.

Scoring Methods. CREZ offers four different methods for scoring games: Keyboard, Point'n'Click (mouse or digital pen), Minimal Glance System (digital pen), and Live Box Score (mouse or digital pen).

For beginners we suggest using *Live Box Score* or *Point'n'Click* and recommend using a spotter.

Practice? Practice any of the four scoring methods by clicking '**GameStats Practice**' on the *Main Menu*. This allows you to practice just scoring (e.g., entering shots, etc.) without tracking the game clock or using rosters.

PRE-GAME

Creating Team Rosters

1. If the team has not yet been created, click '**Teams**' on the *Main Menu* to open the *Team Manager*. Click '**New**'.
2. To add players to the roster click '**Add Player/Staff**'. If the player exists in the *Personnel Manager* then select them and click *Open*. If the player does not exist, then click *New Player* or *Ctrl-N*. Enter the player's name and jersey numbers.
3. Follow the same procedure to create staff members.
4. Close the *Team* window when complete.
5. Repeat for other team.

Creating a Game

1. To create a game, from the *Main Menu* click '**Games**'.
2. In *Game Manager* select '**New GameStats**' to create a new game. You will be asked to fill out the *Game Settings*.
3. Select whether the game is quarters or halves and how long in the *Clock* tab.
4. Using the *Home and Away Roster* tabs, click *Browse* to select the appropriate teams.
5. In *Game Details* enter the information you feel is necessary.
6. Click '**Save and Start Game**' to open the *GameStats* window
7. In *GameStats* click menu **File**→**Event Entry Method** to choose a different scoring method.

IN-GAME

Webcasting. FREE CREZscorer product only allows you to webcast your stats post-game. For a fee (info@crezbasketball.com), you can also webcast in real-time.

1. In *GameStats*, click menu **File**→**Webcast**.
2. Select **Enabled** and select **Live or Test** site. Note: To practice webcasting, please use the **Test** site, otherwise your test game will be broadcast to the public.
3. Click **Test the Connection**. If successful, click **OK** to start webcasting. If the connection does not work then check your Internet connection and try again.
4. To view your webcast click on **View Webcast** or visit <http://webcast.crezbasketball.net>.

CREZ Scorer's StartUp Guide v4.2

Game Clock

- Start and stop the Game Clock by a) Click '**Start/Stop**' or b) hitting the space bar.
- Hint: Stop the clock first and then record the event e.g., for a foul. This helps the game clock to be accurate.
- Adjust the *Game Clock* by a) using up/down buttons beside the game clock or b) clicking menu **Action**→**Change Game Time**.
- If the Game Clock reaches 0:00 and the game is not yet over, just keep entering events as usual until the game is over.

Substitutions

- Click check box beside the player name to sub in/out of the game.
- Subs can be entered while the clock is running or stopped.

Correcting Game Log Events

- Events are added to the *Game Log* at the bottom of your screen.
- To correct errors, click the desired event in the *Game Log* and click *Replace, Delete or Insert Before*. Then, for *Replace* and *Insert Before*, just re-enter the event as usual.
- You can adjust a team's score by the up/down buttons beside their current score, but we recommend fixing the *Game Log* properly so that the stats are assigned to the proper player.

Other Bits

- To switch sides of the teams, click menu **Action**→**Swap Sides**.
- To view a box score click *Box Scores* tab beside *Game Log* tab.
- To view shot charts, click *Shot Charts* tab beside *Game Log* tab.
- Timeouts and coach technical fouls are entered by double-clicking the numbers in the associated boxes.
- Make adjustments to the game settings by clicking menu **File**→**Game Settings...**

Note: You can synch a game video to your stats. To learn how to do this, go to the CREZ Video Capture & Analysis Guide found here:

<http://www.crezbasketball.com/support>. If the Video menu is not available to you within GameStats, contact us for purchase at sales@crezbasketball.com.

POST-GAME AND REPORTING

- Follow the prompts at the end of any period to end the game or continue to the next period.
- To print, click menu **File**→**Print** and select your desired report.
- To create a *MaxPreps* file, click menu **File**→**Generate**→**MaxPreps Home or Away**. Go to MaxPreps.com to upload the file.
